

## Downshall is a Maths Ambassador School

The DfE fund 35 Maths Hubs across the country. These are managed by the NCETM. Our nearest Hub is the London North East Maths Hub (led by Elmhurst Primary School, Newham). Downshall Primary school is very proud to be an ambassador school for the Hub. The Headteacher of our school is an active member of the Hub's strategic board and being an ambassador school means that not only are we at the forefront of receiving up to date information, updates and funding from the Hub, but also that we act as a beacon for the Hub in representing the borough of Redbridge and all the excellent work taking place in our Local Authority.
